Gentlemen:

Enclosed please find digitized draft borehole log data for OUs 4 and 7 as requested by Elizabeth Pottoroff of the Colorado Department of Health for use by the EPA/CDH groundwater modeling group. Also being transmitted is a disk containing logs of special borings completed in 1993 and a disk containing .DBF files.

The logs are being transmitted to the EPA because Gary Kleeman of your staff is the point of contact for all transmittals to the groundwater modeling group. Please note that the logger files on diskette are draft copies but are not indicated as draft in the actual files. Logs are typically not finalized until completion of the final RFI/RI report.

If you have any questions or comments, please contact Jen Pepe of my staff at 966-2184.

Sincerely,

Richard J. Schassburger  
Acting Director  
Environmental Restoration Division
